Logo Introduction

Logo

Life's unhurried moments

The "Just Chillin'" logo takes the form of an artistic stamp; a visual representation of the "Just Chillin'" spirit – a harmonious blend of cool vibes and carefree relaxation, making a statement that's both distinctive and effortlessly cool.

Designed with a minimalist yet captivating approach, it captures attention with its unique playfulness.

Logo Variation

Positioning

The ability to adapt and perform in many locations and mediums: Print, screen, clothing, vehicle livery for instance is just one of the challenges for a logo.

For this reason variants of the main logo are created to enable it to adapt and sit well whatever the location or background maybe.

Isolation Zone

The isolation zone is the space around the logo.

It is important that no images, text, borders or margins are placed within 25% of the overall logo.

Business Cards

By way of introduction.

Business cards are always useful for passing to clients at meetings, interested parties at networking events or simply handing out when opportunities arise.

Typography

Fonts

Three fonts are used for the Just Chillin' Brand.

'Montserrat' is the font choice for bold headings and titles.

Supporting this is 'Raleway' and it's various font weights for all body text.

Lastly is Merriweather which is used as a supporting font to be used for terms, conditions, commentary and page numbering

The pages in this document are set with this 3 combination of fonts to give a working example. The titles are set in Montserrat, the sub headings and body text are set in Raleway and the page name and numbers (*at the bottom corners*) are set in Merriweather.

All three of these are google fonts to ensure practical availability and ease of use.
